

**Living Leadership**  
GROWING DISCIPLE-MAKING LEADERS

**ASSOCIATES**

## What are Living Leadership associates?

Living Leadership Associates are Christian believers of mature character and proven competence in providing training and support and creating resources for Christian leaders

Associates enter into a written agreement with Living Leadership to deliver specified services within its strategic plan, in its name and within its ethos.

## Our vision for the Associates Scheme

Living Leadership's vision is to see Christ glorified in the Church through leaders who joyfully abide in Him and faithfully serve Him.

We recognise that Christ has given to His Church people with the character, gifting and experience necessary to further this vision by training, supporting and resourcing leaders.

We know many of these people are working in relative isolation, unknown to some of those who need their help, and lacking resources that could enhance their effectiveness.

We want to grow a dynamic network of Living Leadership Associates who are:

- deeply encouraged through collaborative learning;
- widely promoted through affiliation with a trusted organisation; and
- strongly supported through free access to a range of benefits.

## Person Specification

Potential Associates must:

- a) be in full agreement with the Living Leadership basis of faith;
- b) exhibit proven gifting and experience in the relevant area of service;
- c) be recognised by others as mature Christian believers and faithful servants;
- d) be prepared to work within the 'Living Leadership Way of Working'.
- e) have a right to live and work in the country in which they will be serving.
